

# ABOUT US

JiB is a global chain cafe that originated in Seoul, South Korea. We sell fresh baked organic goods as well as drinks that are made with top tier ingredients. JiB stands for “home” in Korean and the whole concept of JiB is for people to feel warm and welcome at the cafe.

The layout of the cafe is designed for casual interactions with other strangers. However, there are other areas of the cafe designated for individuals or a small group of people that want a more quiet environment.

JiB is a cafe that is very popular amongst young adults as it has aesthetic foods and areas to take pictures. We attract a lot of Koreans due to our origins, but have been attracting young adults of all races after we expanded globally. Our menu also changes every month where we have a new pastry and drink addition.

We strive to create a space where people can come to enjoy a pastry and drink while feeling at peace. This is a place for people to re-wind after work and destress after a long day of school.
